## 教育背景

---

|                      |                 |
|----------------------|-----------------|
| 郑州大学, 软件工程, 工学博士     | 2018.09-2023.12 |
| 郑州大学, 计算机软件与理论, 工学硕士 | 2010.09-2013.06 |
| 郑州大学, 计算机科学与技术, 工学学士 | 2006.09-2010.06 |

## 代表学术论文

- 
- [1] **Wang Y**, Miao Q, Fang H, et al. Empowering self-balance of deep information bottleneck for multimodal clustering [C]// In Proceedings of the 35th International Joint Conference on Artificial Intelligence, 2026. (CCF B 类国际会议)
  - [2] Sun Z, Chen L, **Wang Y**, et al. Hyperbolic Adversarial Variational Embedding for item recommendation. Engineering Applications of Artificial Intelligence, 2026, (中科院 1 区 SCI, IF: 8.0)
  - [3] Fang H, Tian Z, **Wang Y**, et al. Contrastive Variational Graph Symmetric Autoencoder for Full Extrapolation Over Temporal Knowledge Graphs. IEEE Transactions on Systems, Man, and Cybernetics: Systems, 2026, (中科院 1 区 SCI, IF: 8.7)
  - [4] **Wang Y**, Cao P, Fang H, et al. Span-aware pre-trained network with deep information bottleneck for scientific entity relation extraction [J]. Neural Networks. 2025, 186: 107250. (中科院一区 SCI, CCF B, IF: 6.0)
  - [5] Fang H, Cheng K, Zhang R, **Wang Y**, et al. Meta-collaboration-based semantic contrast for inductive knowledge representation learning. Expert Systems with Applications, 2025, (中科院 1 区 SCI, IF: 7.5)
  - [6] Fang H, Zhang H, Du Y, Guo Q, Zhen T, **Wang Y**, et al. CDIB: Consistency Discovery-guided Information Bottleneck for Multi-modal Knowledge Graph Reasoning. Proceedings of the 33rd ACM International Conference on Multimedia, 2025, (CCF A 类国际会议)
  - [7] She W, Li X, Lv L, **Wang Y**, et al. Multi-view syntax-semantics information bottleneck for dependency-driven relation extraction [J]. Expert Systems with Applications. 2025, 288: 128207. (中科院一区 SCI, IF: 8.5)
  - [8] **Wang Y**, Wang Y, Sun Z, et al. Deep purified feature mining model for joint named entity recognition and relation extraction[J]. Information Processing & Management. 2023, 60(6): 103511. (中科院一区 SCI, CCF B, IF: 8.6)
  - [9] Tian Z, Zhao X, Li X, Ma X, Li Y, **Wang Y\***, Multi-modal semantics fusion model for domain relation extraction via information bottleneck[J]. Expert Systems with

- Applications. 2024, 244: 122918. (中科院一区 SCI, IF: 8.5)
- [10] **Wang Y**, Zhu C, Guo Q, et al. A domain semantics-enhanced relation extraction model for identifying the railway safety risk[J]. Complex & Intelligent Systems. 2023, 9: 6493–6507. (中科院二区 SCI, IF: 5.8)
- [11] Fang H, **Wang Y**, Tian Z, et al. Learning knowledge graph embedding with a dual-attention embedding network[J]. Expert Systems with Applications, 2023, 212: 118806. (中科院一区 SCI, IF: 8.5)
- [12] Zhong C, Wu B, **Wang Y**, et al. Sequential Graph Collaborative Filtering[J]. Information Sciences. 2022, 592: 244-260. (中科院一区 SCI, CCF B, IF: 8.1)

## 参与科研项目

---

### 国家自然科学基金

- ✧ 图传播 IB 方法的模型及传播机制研究 (62176239)
- ✧ 传播 IB 方法的研究 (61772475)

### 国家重点研发计划“先进轨道交通”重点专项

- ✧ 高速铁路成网条件下铁路综合效能与服务水平提升技术 (2018YFB1201403)

### 省部级项目

- ✧ 深度 IB 感知的结构化知识获取方法研究 (252300423339)
- ✧ 基于人工智能的安全风险防控关键技术研究 (212102210548)
- ✧ 面向工业 5.0 的产业数据安全关键技术研究 (24A520246)
